**Subject: Your Attention to the Police Accountability Task Force (PATF) - CB83-2021 Needs to be PASSED NOW with Suggested Criteria**

Dear Elected Officials,

The Howard County Citizens Association, HCCA is counting on you to do the right thing regarding ensuring the PATF will be a complete independent entity for protection of safety and justice for all. We ask you to implement the following:

- **NO** to gagging the Police Accountability Board to prevent communications with the community on matters of police conduct.
- **NO** to denying the Police Accountability Board the information it needs to drive accountability in policing.
- **NO** to the police policing themselves.

We are hoping that at the end your votes will include the aforementioned requirements. There has already been very compelling testimony on the subject. We are only hoping without any further delay the County Council will pass CB83-2021 and County Executive Ball will sign it. **The TIME is NOW!**

Thank you,

Stu Kohn  
HCCA President
