**Subject:** Feedback Received From County Executive's Listening Tour

FYI,

I received the following regarding our inquiry relating to feedback from County Executive Ball's Listening Tour held from 9 January to 1 February 2023. This information was sent by Paul Thompson who is the new Director of Constituent Services and Community Partnerships. Please see what was received - [https://howardcountyhcca.org/wp-content/uploads/2023/03/Listening\\_Session\\_Report.pdf](https://howardcountyhcca.org/wp-content/uploads/2023/03/Listening_Session_Report.pdf).

We have asked for additional information as to how these "top five priorities" will be achieved and what will be the first steps and dates whereby action will be taken to achieve such goals the Public seeks.

Stu Kohn  
HCCA President

Original email inquiring about Feedback.

Re: [HOWARD-CITIZEN] Fwd: Feedback from County Executive Listening Tour Dated - 2/13/23

FYI,

In today's County Executive Ball's online bulletin is an article regarding the County Executive's Listening Tour. It states, "We're Still Listening - During our Listening Sessions over the last few weeks, we heard from over 300 people on issues important to them. My team is working through the feedback we received, which will help us shape the future of Howard County. If you missed joining us in person, you can still send us your thoughts via email at [Future@howardCountymd.gov](mailto:Future@howardCountymd.gov).

Together, we will continue our work to create the best Howard County for all."

As we inquired last week (below) we would simply like to know approximately when can the public expect feedback from the "Listening Tour" and what actions will be taken to make our County a better place?

Thank You,

Stu Kohn  
HCCA President

PS - this email was sent to the County Executive and Cc'd the County Council.
